AMENDMENT

Dear Sir:

In response to the Office Action dated January 15, 2002, please amend this application as follows:

In the specification:

Replace the paragraph at page 9, line 10 with the following:

With reference to FIG. 1, an exemplary system for implementing the invention includes a general purpose computing device in the form of a conventional personal computer including a processing unit 21, a system memory 22, and a system bus 23 that couples various system components including the system memory to the processing unit 21. The system bus 23 may be any of several types of bus structures including a memory bus or memory controller, a peripheral bus, and a local bus using any of a variety of bus architectures. The system memory includes read only memory (ROM) 24 and random access memory (RAM) 25. A basic input/output system 26 (BIOS), containing the basic process that helps to transfer information between elements within the personal computer, such as during start-up, is stored in ROM 24. The
